## NEGOTIATIONS UPDATE

October 3, 2018

On July 23rd the Committee began the process of negotiating a new contract with the Company. We have spent several weeks attempting to work out a fair and equitable contract for the membership. These have been the most difficult negotiations in many years for our Local. This past weekend the Committee was called up to Chicago to support the Chairman at the main table prior to the expiration of the contract which was October 1<sup>st</sup> at midnight. Given that progress has been made, both parties have agreed to a day-to-day contract extension, and we are determined to get an agreement.

Currently we have a tentative agreement on our local issues based only if we reach an agreement at the main table. The information in our local agreement is subject to change based on the final agreement. We ask that all members continue to be patient as all changes to the new contract will be shared when a main table agreement is reached. There will be detailed informational meetings prior to the official ratification vote.

As we wait for further instruction from the Policy Council it is important for all of us to stand united and support our brothers and sisters as we continue this fight to the end.

In Solidarity,

Mike Espinosa,  
Alternate Bargaining Chairman

Chris Blizard,  
UAW Local 402 President
